## HOW TO DO IT

# Small Paper Globe

①

Print out the templates and two copies of the backing sheet on heavy white printing paper. Color them in – you can use an atlas to help with this.

②

Carefully cut out the parts of the globe. Fold the glueing tabs backwards and stick the template together along the edges of the strips to form a quarter sphere.

③

Glue together the quarter spheres from sheets A1 and A2 into a half sphere, and do the same with those from sheets B1 and B2. To improve the strength of each half sphere, glue each one onto a backing sheet.

④

Finally, glue the two half spheres together to form a globe

**Globe - backing sheet**

**Print twice**
